Tender ID	SEWOH-4398-BMZ-Chain-2026-6
Programme	SEWOH – Improving livelihoods of people with and without disabilities in the hills of Uttarakhand through Community-Based inclusive agriculture, India
Activity	Supply of Galvanized Steel Chain Link Fencing
Location	Dev. Block - Bhikiyasen & Salt, Dist. – Almora, Uttarakhand
Date of Publication	18 February 2026
Submission Deadline	27 February 2026

1. ABOUT THE TENDER

Sanjeevani Vikas Evam Jan Kalyan Samiti invites sealed competitive tenders from eligible and registered contractors and firms for the execution of development projects within the Almora District under the SEWOH Programme. We seek partners with proven expertise in infrastructure development who share our commitment to community safety and sustainable development.

Who We Are:

Sanjeevani Vikas Evam Jan Kalyan Samiti, also known as Sanjeevani Organisation, is a non-government social organization, registered under the Societies Registration Act 21, 1860. Since our inception in the year 2000, Sanjeevani has been working unremittingly on multiple themes for overall and inclusive development, such as education, health, environment, livelihood, rural development, etc. in rural hilly regions of Uttarakhand and Himachal Pradesh states in India. Sanjeevani is compliant to all the regulations of Government of India and State government such as registration under 12A, and 80G, registered to receive grants under CSR through Form 1 under Ministry of Corporate Affairs, registered under Foreign Contribution Regulation Act (FCRA). Sanjeevani has successfully undertaken and implemented many development programmes through partnership with the government, national and international development agencies.

SEWOH Programme Overview:

Disability inclusive development is the very apex of the development agenda for CBM and Sanjeevani. Both organizations joined hands in the past and revolutionized the lives of small and marginal farmers with and without disabilities, through the implementation of innovative and inclusive development programmes. With support from German Cooperation (BMZ) and CBM, Sanjeevani is building a just society where equity and dignity are accessible to all, with 02 other development blocks (Salt & Bhikiyasen) other than the previous. Disability-inclusive development stands at the heart of this initiative. Small and marginal farmers in Almora face steep barriers: poverty, migration, limited landholdings, and lack of access to markets. For persons with disabilities, these challenges are compounded by stigma, inaccessible tools, and exclusion from mainstream programmes. With over 70% of households earning less than €1,000 annually, the need for sustainable, inclusive solutions is urgent.

SEWOH is transforming livelihoods in the hills of Uttarakhand by ensuring that people with and without disabilities participate equally in community-based agriculture.

Based on the principle of "Leave No One Behind", SEWOH empowers 2,500 farmers—including 500 with disabilities—through:

- Community-Based Inclusive Groups (CBIGs).
- Organizations of Persons with Disabilities (OPDs) for collective voice and rights. Through government engagement, rights advocacy, access to assistive devices, BVJF affiliation, and trained leaders, the OPD is empowering persons with disabilities, fostering self-reliant, rights-based communities with sustainable empowerment.
- Training in modern Agri-horticulture, adapted equipment, and high-quality inputs to boost productivity.
- Establishment of two Farmer Producer Organizations (FPOs) to strengthen market linkages, reduce post-harvest losses, and extend the shelf-life of produce.
- Accessible demonstration units and technology transfer to improve soil health and farming practices.

Partnership Opportunity:

This tender represents an opportunity to partner with Sanjeevani in transforming agricultural livelihoods across Almora District. Selected vendors will not only supply critical infrastructure but also contribute directly to farmers economic empowerment, sustainable land use practices, and community resilience. We value transparency, quality workmanship, ethical practices, and shared commitment to rural development.

2. PROJECT OBJECTIVE

The objective is to procure and supply high-quality, weather-resistant Galvanized Steel (GI) Chain Link Fencing to support the SEWOH Programme within the Bhikiyasen and Salt Development Blocks. Chain-link fencing is vital for farmers as it protects crops from stray animals, secures resources, and clearly marks boundaries. It is durable, cost-effective, and helps ensure sustainable cultivation, directly reducing losses and strengthening livelihoods. This project is vital for protecting community assets, supporting agricultural initiatives, and ensuring the safety and well-being of residents.

Geographic & Demographic Context:

Bhikiyasen and Salt are rural development blocks in Almora District, Uttarakhand, characterized by hilly terrain, smallholder agricultural farms, and limited infrastructure. The region receives significant agricultural income from farming and allied activities, but faces challenges from livestock damage, overgrazing, and property boundary disputes. The population includes small and marginal farmers, landless laborers, and pastoral communities. This fencing project directly addresses key livelihood challenges while promoting sustainable resource management. The region's agricultural potential remains underutilized due to infrastructure limitations, making this fencing investment strategic for community transformation.

Strategic Importance:

Chain-link fencing is foundational to the SEWOH Programme's agricultural development pillar. By securing agricultural land boundaries and enabling farmers to implement improved farming practices, this project catalyzes broader development. Successful fencing implementation demonstrates Sanjeevani's commitment to evidence-based rural development and creates a foundation for integrated interventions, including improved irrigation, soil management, agricultural extension services, and livestock improvement programs. This tender represents initial phase with potential for expansion based on demonstrated impact and community demand.

3. SCOPE OF WORK

Supply of Galvanized Steel Chain Link Fencing with the following responsibilities:

- Manufacturing/Sourcing: Ensure the GI wire is hot-dipped galvanized to prevent corrosion in the local climate
- Quality Control: Verify that mesh size and wire gauge are uniform throughout every 15m bundle
- Delivery: Transport bundles to designated drop-off points within the Bhikiyasen and Salt Development Blocks
- Warranty: Provide 01-year manufacturer's warranty on all supplied materials

4. TECHNICAL SPECIFICATIONS

Fencing Type	Galvanized Steel Chain Link Fabric
Finish	Rust and weather-resistant silver finish
Height	4 feet / 1.20 meters
Chain Link Type	Woven
Wire Diameter	0.160 inch
Mesh Size	2.5 inch (diamond pattern)
Knuckle Type	Top and bottom end knuckled or well twisted
Material Process	Hot-dipped galvanized
Design	Roll-out design
Standards Compliance	Meet or exceed ASTM standards
Bundle Length	15 meters per roll

5. APPLICANT ELIGIBILITY CRITERIA

- Valid GST registration **(if this is relevant to you)**
- PAN
- Trade License
- Ability to manage transportation and offloading in hilly terrains
- Comprehensive quoting including unit rates, primary transportation, and local distribution costs
- All materials must meet standards for rural infrastructure durability

6. REQUIRED SUBMISSION DOCUMENTS

- Expression of Interest
- Company Profile **(if this is relevant to you)**
- Detailed Quotation
- Valid GST Certificate **(if this is relevant to you)**
- AADHAR Copy
- PAN copy
- Cancelled Cheque Copy
- Delivery note **(if this is relevant to you)**
- Work Experience Certificate from previous organization/company **(if this is relevant to you)**
- Project Completion Reports **(if this is relevant to you)**
- Photographs of relevant completed projects **(if this is relevant to you)**
- MNRE Guidelines Compliance Certificate **(if this is relevant to you)**

7. SUBMISSION GUIDELINES

Application Mode	Website Tender Portal or Direct Submission to Head Office, Ranikhet
Submission Address	Sealed envelope marked " Application for Tender ID: SEWOH-4398-BMZ-Chain-2026-6 "
Deadline	27 February 2026 (All submissions must be received by this date)
Contact Email	procurement@sanjeevaningo.org

8. SELECTION & EVALUATION

Sanjeevani Vikas Evam Jan Kalyan Samiti reserves the right to accept or reject any tender without assigning any reason. All procurement processes adhere to strict guidelines to ensure accountability and ethical practices. Selection will be based on technical competence, pricing, experience, and overall suitability to execute the project.

9. KEY HIGHLIGHTS

Transparency: All procurement processes adhere to strict guidelines to ensure accountability and ethical practices.

Sustainability: Materials supplied will contribute to long-term rural development and community safety.

Impact: This project aligns with our mission to empower rural communities and improve critical infrastructure.

Partnership Value: Your partnership will directly contribute to the welfare and progress of communities in Almora District.

10. COMMITMENT TO SAFEGUARDING

At Sanjeevani, we are committed to safeguarding the project participants. We will do everything possible to ensure that only those suitable to work with vulnerable people are recruited to work with us. All selected contractors must comply with our safeguarding policies and guidelines.
